

REPORT TO COMMITTEE ON CHEMISTRY EDUCATION

Morton Z. Hoffman, United States National Representative
Conference Coordinator

Past ICCE

1 st	Frascati, Italy	October 1969
2 nd	Wroclaw, Poland	September 1973
3 rd	Madrid, Spain	September 1975
4 th	Ljubljana, Yugoslavia	August 1977
5 th	Dublin, Ireland	August 1979
6 th	College Park, Maryland, U.S.A.	August 1981
7 th	Montpellier, France	August 1983
8 th	Tokyo, Japan	August 1985
9 th	São Paulo, Brazil	July 1987
10 th	Waterloo, Ontario, Canada	August 1989
11 th	York, England	August 1991
12 th	Bangkok, Thailand	December 1992
13 th	San Juan, Puerto Rico	August 1994
14 th	Brisbane, Australia	July 1996
15 th	Cairo, Egypt	August 1998
16 th	Budapest, Hungary	August 2000
17 th	Beijing, China	August 2002
18 th	Istanbul, Turkey	August 2004
19 th	Seoul, Korea	August 2006
20 th	Pointe aux Piments, Mauritius	August 2008
21 st	Taipei, Taiwan	August 2010
22 nd	Rome, Italy (joint with ECRICE)	July 2012

Future ICCE

23 rd	Toronto, Ontario, Canada	July 13-18, 2014
24 th	Site to be decided Bids from Institut Kimia Malaysia (Ting-Kueh Soon); University of Sydney, Australia (Siegbert Schmid) Site selection in 2013 at CCE meeting at IUPAC General Assembly in Istanbul	2016
25 th	Site and bids open Site selection in 2015 at CCE meeting at IUPAC General Assembly in Seoul	2018
26 th	Site and bids open Site selection in 2017 at CCE meeting at IUPAC General Assembly	2020

ICCE Selection Criteria

CCE, which oversees the International Conferences on Chemical Education (ICCE) and selects their locations, gives the following guidance to applicants. In making their selection, the CCE will take a sympathetic view of the responses of countries anxious to use the ICCE as a tool for development, and such countries are encouraged to consider preparing a bid. CCE is committed to holding ICCE at locations in all regions of the world.

Although IUPAC-sponsored conferences are restricted to countries that have a National Adhering Organization, that restriction can be waived for countries that may be regarded as "emerging."

Applicants should use the official IUPAC form that can be downloaded from:

<http://www.iupac.org/conferenceSponsorship>

Potential applicants are invited to make a preliminary expression of interest, in person or electronically, at the CCE meeting at the ICCE four years before the meeting of interest. The presentation of formal bids, in person or electronically, will be made before CCE at the IUPAC Congress and General Assembly three years before the meeting, at which time the final decision will be made.

The formal bid should include details about the financial resources available to host the conference, the range of accommodations and their costs, international travel access to the host city, and potential visa restrictions to attendees. The formal bid should also include information about the conference venue and organization such as:

1. The availability, style, quality, and location of lecture rooms, dining rooms, and laboratories.
2. The availability of technology resources and access to the internet.
3. The number of the members of the conference committees and their level of expertise that are involved in the organization and management of the conference.
4. An assessment of the ability of the conference to attract high school teachers and students of chemistry education from the region, and the financial resources that are anticipated being available to enable them to attend.
5. A (non-binding!) assessment of the weather conditions at the planned meeting time.
6. Opportunities for excursions and entertainment.

Questions relating to this procedure, and applications, should be sent to the CCE Conference Coordinator:

Prof. Morton Z. Hoffman
Department of Chemistry
