

11th Solid State Chemistry conference (SSC 2014), July 2014, Slovakia

(contact: drabik@fns.uniba.sk or uachmdra@savba.sk)

Papers of 7 invited and key-note speakers and 3 young authors of IUPAC awarded poster presentations of SSC 2014 have been published on the invitation of the scientific editor of **PURE AND APPLIED CHEMISTRY**.

Pure Appl. Chem. 2015, Volume 87, Issue 3, pp. 219 – 310 & Issue 4, pp. 405 – 415.

Preface, Milan Drábik; **11th Conference on Solid State Chemistry (SSC 2014)**, **pg. 219**

(Keywords: conference series; IUPAC poster prize; solid state and materials chemistry; SSC 2014. DOI 10.1515/pac-2015-5001)

Conference papers

Syed Ansar M. Tofail, Abbasi A. Gandhi, Maros Gregor and Joanna Bauer; **Electrical properties of hydroxyapatite**, **pp. 221-230**

Katrien De Keukeleere, Glenn Pollefeyt, Jonas Feys, Jonathan De Roo, Hannes Rijckaert, Petra Lommens and Isabel Van Driessche; **Chemical solution deposition of functional ceramic coatings using ink-jet printing**, **pp. 231-238**

Petr Košťál and Jiří Málek; **Viscosity of Se–Te glass-forming system**, **pp. 239-248**

Deepak S. Patil, Manisha S. Konale, Jakub Kolar, Koichi Shimakawa, Vitezslav Zima and Tomas Wagner; **Ionic conductivity study of LiI-Ga₂S₃-GeS₂ chalcogenide glasses using a random-walk approach**, **pp. 249-260**
(based on the IUPAC awarded poster)

Sylvain Rat, José Sánchez Costa, Salma Bedoui, William Nicolazzi, Gábor Molnár, Lionel Salmon and Azzedine Bousseksou; **Investigation of nucleation and growth phenomena during the thermal and light induced spin transition in the [Fe(1-bpp)₂][BF₄]₂ complex**, **pp. 261-270**

Boris Tsukerblat, Andrew Palii and Juan Modesto Clemente-Juan; **Self-trapping of charge polarized states in four-dot molecular quantum cellular automata: bi-electronic tetrameric mixed-valence species**, **pp. 271-282**

Simonas Kareiva, Algirdas Selskis, Feliksas Ivanauskas and Simas Sakirzanovas; **Stereophotography and spatial surface reconstruction using scanning electron microscopy images**, **pp. 283-292**
(based on the IUPAC awarded poster)

Patrick Homenya, Lars Heyer and Franz Renz; **Electromagnetic radiation as a spin crossover stimulus**, **pp. 293-300**

Enver Murad; **Instrumental characterization of geological materials and their synthetic analogs**, **pp. 301-310**

Roland Šolc, Daniel Tunega, Martin H. Gerzabek, Susanne K. Woche, Jörg Bachmann; **Wettability of organically coated tridymite surface –molecular dynamics study**, **pp. 405-415 (issue 4)**
(based on the IUPAC awarded poster)

The present issue of PAC is the third in the Conference series “Solid State Chemistry,” the earlier issues – 5th Conference on Solid State Chemistry (SSC 2002), Bratislava, Slovakia, 7–12 July 2002 and 8th Conference on Solid State Chemistry (SSC 2008), Bratislava, Slovakia, 6–11 July 2008 can be found in *Pure and Applied Chemistry* 2002, Vol. 74, Issue 11, pp. 2083–2168 and 2009, Vol. 81, Issue 8, pp. 1345–1534.)

Preliminary announcement of 12th SSC (SSC 2016) to follow: Venue & date – Czech Republic, Prague, hotel DAP, September 11th – 16th 2016, Web site – www.SolidStateChemistry.eu , to be active soon (info as at July 5th), Conference Chair – Ing. Adriana Lančok, Ph.D., +420 731 565 958, ada@iic.cas.cz
