

IUPAC: Chemistry of the Environment Division (DIV. VI)

Bioavailability and Significance of Endocrine Disruptive Compounds (EDCs) in Tertiary Effluent and Impact on Water Reuse

WORLD FORUM, THE HAGUE
SOUTH AMERICA ROOM
Monday August 21, 2023

PROGRAM

13:30 -14:00 Welcome & Gathering
Light Refreshment

14:00-14:10 Opening
IUPAC, Div. VI President. Prof, Roberto Terzano

Session 1 Endocrine Disruptive Compounds (EDCs) Impediment
Chair: Prof. Hemda Garelick

14:10 - 14:30 Bioavailability and Significance of EDCs in Tertiary Effluent and Impact on Water Reuse, Working Group Report - An Overview
Dr. Yehuda Shevah, Consultant, EDC Working Group Leader

14:30 - 14:50 Possibilities and Challenges for Water Reuse "fit for purpose"
Prof Sonia Bauer, OTH Amberg-Weiden

14:50 - 15:10 EDC in the water cycle
Dr. Milou Dingemans, KWR - Water Research Institute, Netherlands

15:10 - 15:30 EDCs Environmental Impacts from a National Sectoral Perspective; a case example of sustainability and the health care sector
Dr. Susanne Laura Waaijers-van der Loop, National Institute for Public Health and the Env. (RIVM), Netherlands

15:30 - 16:00 Q&A

16:00 -16:30 Coffee Break

Session 2: General Discussion and Conclusions
Chair Prof. Diane Purchase

16:30 - 17:30 General Discussion

17:30 - 17:50 Conclusions

17:50 - 18:00 CLOSING
