

WHO WE ARE ?

The Tunisian Chemical Society (TCS) is a non-profit learned society founded in 1978 by a group of academic and industrial chemists. The mission of the TCS is to promote chemistry in Tunisia on the educational and fundamental as well as industrial points of view.

OUR MISSIONS

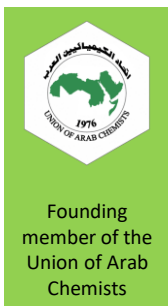

OUR STRUCTURE

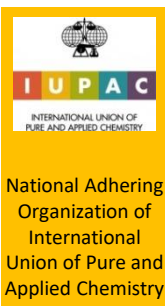

A National Bureau constituted of 12 members elected biannually by members and 5 regional branches (Bizerte, Monastir, Sfax, Gabes and Gafsa), each one having 5 members including a General Secretary and a treasurer.

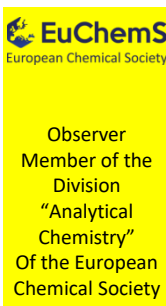

INTERNATIONAL RELATIONSHIPS

Founding member of the Union of Arab Chemists

National Adhering Organization of International Union of Pure and Applied Chemistry

Observer Member of the Division "Analytical Chemistry" Of the European Chemical Society

Founding member of the African Federation of Chemical Societies

OUR JOURNAL

Among the TCS objectives the dissemination of knowledge through its journal "The Journal of the Chemical Society of Tunisia" including all the chemistry fields. The Journal was published without interruption from 1979 to 2017, with 2 issues per year.

Since 2018, the TCS has teamed up with the international publisher "Springer Nature" who has taken over the edition of its journal renamed "**Chemistry Africa - A Journal of the Tunisian Chemical Society**"
